Catarrahal Deafness
and Head Noises

TELLS SAFE AND SIMPLE WAY TO
TREAT AND RELIEVE AT HOME.

If you have catarrhal deafness or
head noises caused by catarrh of the
throat or middle ear, you should know
that this is a very common ailment and
that it can be cured in many instances by
the following treatment, which you can
easily prepare in your own home.
Little cost: Secure from your druggist
1 ounce of Eucalypti (Eucalypti), 1 ounce
of Glycerine and add to it 1 pint of
hot water and a little strained
sugar. Use until dissolved. Take
tablespoonful four times a day. An
improvement is sometimes noted after
the first day's treatment. Breathe
should become easy, while the distress-
ing head noises, headaches, dizziness,
cloudy thinking, etc., should gradually
disappear under the tonic action of the
treatment. Loss of small, taste, de-
fective hearing and mucus dropping in
the back of the throat are other symp-
toms which suggest the presence of cat-
arrhal deafness which may often be over-
come by this efficacious treatment. It
is said that nearly 90 per cent. of all
ear troubles are caused by catarrh and
there must, therefore, be many people
whose hearing may be restored by this
simple, harmless, home-treatment.

Owners of dogs are counting the
days which remain in the order
to keep dogs in restraint expires as
the dogs which are not accustomed to
being tied up are getting very uneasy.
It is surprising how well the order
has been carried out although now and
then a dog has slipped his collar or
escaped the vigilance of his owner and
acted his liberty for a brief period.
There has been splendid cooperation
on the part of the public in carrying
out the orders of the authorities to
restrain dogs.

GERMAN LINGER BISMARCK
RENAMED THE MAJESTIC

New York, Feb. 28.—The former Ger-
man liner Bismarck, the largest ship in
the world, recently purchased by the
White Star Line from the reparations
commission, is to be renamed the Ma-
jestic.

She will be the second notable Ma-
jestic to fly the British flag. The original
ship of the name—and a queen of the
sea in her day—was launched in 1889
and broken up in 1914. Her hull and
machinery went to the manufacture of
war munitions.

The new Majestic, 26,000 gross tons,
is about five times the size of her pre-
decessor. She is yet to see service, be-
ing in the latest stages of completion when
the war broke out.

She is now being made ready for her
new owners by German workers in the
Hamburg ship yards, in compliance with

FEDERAL "DRY" AGENTS MUST
HAVE SEARCH WARRANTS

Washington, Feb. 28.—Evidence ob-
tained by agents in raids conducted with-
out a search warrant cannot be admitted
in court proceedings, the supreme court
ruled today in setting aside the con-
viction in South Carolina of Lawrence
Amos.

Amos was convicted of removing dis-
tilled spirits from which the taxes had not
been paid to a place other than a dis-
tillery warehouse and of concealing such
spirits. In appealing to the higher courts
he alleged that the fourth and fifth
amendments to the federal constitution
had been violated when federal officers
searched his home without a warrant.

REPORT OF PENN. RAILROAD
SHOWS BUSINESS DEPRESSION

Philadelphia, Feb. 28.—The twenty-
fourth annual report of the Pennsylvania
Railroad company, made public tonight,
reflects the business depression that has
been felt in many lines of industry in re-
cent months. President Rea, speaking
of rate and volume increases, says the com-
pany, having sustained a heavy decrease
in gross and net income, had no re-
source but to make a "severe retrench-
ment in its operating expenses." "It is
hoped," he says, "that the readjustment
will be short-lived and that the company
can resume its normal operations and
assurance can be given, because it is not
restricted to the United States."

Senators' COST OF THE
PROPOSED BONUS BILL

Washington, Feb. 28.—Adjusted com-
pensation for former service men as pro-
posed in the amended bonus bill
formally presented today to the senate
will cost between one and a half billion
and five and a quarter billion dollars,
Senator McCumber, republican, North
Dakota, who has charge of the measure,
estimated in his report to the senate.
The exact cost will depend upon the
number of men accepting each of the
plans proposed.

Senator McCumber said the interest on
war loans to the allies "would more than
take care of the obligations created by
the bill, and without any increase in
taxes." He expressed the hope that the
bill might be passed at this session, but
said postponement would not be im-
portant, as the plans of compensation pro-
posed would not become effective until

Jan. 1, 1923.

The plan to distribute the cost of the
bill over the next twenty years, Senator
McCumber said, would prevent its being
burdensome to the country.

If all war veterans took the cash bonus
for length of service, Senator McCumber
said the estimated cost would be \$1,517,-
904,252. If all took the twenty-year de-
ferred certificate, the cost, he said,
would be \$5,251,244,000. All cash claims
would require the treasury to pay out
\$500,000,000 in 1923, \$900,000,000 in 1924
and \$250,000,000 in 1925. If all veterans
took the certificates, the 1923 require-
ments, the figures showed, would be \$44,-
726,000, increasing up to \$58,000,000 in
1925.

TO EXECUTE ASSASSINS
OF BRITISH OFFICERS

London, Feb. 28.—A number of prison-
ers court-martialed in connection with the
assassination of fourteen British officers
in Dublin on November 21 last will be
evidently in deference to the popular
superstition which regards that num-
ber as unlucky.

Nearly a dozen important streets in
London will be closed to traffic on Wed-
nesday, Feb. 29, in connection with the
celebration of the centenary of the birth
of Charles Darwin.

Do you pay your body
for the vital energy you use?

Every day you use up a large amount of vital energy. But—do you
pay it back? Remember your body can't continue to supply vital
energy unless you give it the materials which produce vitality.

Thousands of men and women get weak, anemic, nervous and run-
down, because they use up their vital energy quicker than the body
can create it. In other words, they fail to pay the body for the vital
energy they use. Do you?

If you tire quickly—If your nerves are shaky—
If your blood is poor—If you are run-down or
debilitated—your body is asking for payment.

That means your system is calling for
those materials which it needs to enable
it to create vital energy and nerve force.
And so surely as you restore to the body

what it lacks when you are weak, ane-
mic, nervous or run-down so surely will
you regain vital power—rich red blood—
steady nerves, vitality and endurance.

How to restore your vital energy—enrich your blood
—strengthen your nerves and promote vigor and vitality

In almost every case of weakness, ane-
mia, nervousness and run-down vitality,
there is real shortage in the body of
several mineral elements which are
positively essential to the creation of
vital power. These elements are, paradi-
matically, Iron, Calcium, Potassium, Sodium,
Phosphorus. All these elements are
contained in Wincarnis, because Wincarnis
is prepared especially for weak,

form, Wincarnis should be your choice if
you desire more strength—new rich, red blood,
new nerve force and new vitality. Your

Choose the right way to health

When there is a shortage in the body of Iron,
Calcium, Potassium, Sodium and Phosphorus
it follows that no single one of these will do.
The body must be supplied with all of them.
And because Wincarnis contains all of them in
most appropriate proportions and acceptable

form, Wincarnis should be your choice if
you desire more strength—new rich, red blood,
new nerve force and new vitality. Your
